| Culture: | Socially responsible culture with biological crop protection |
| Availability: | Year round |
| Shelf Life: | Up to 7 days at 2-7°C |

Taste and usage

The WhatZnew Mix is a special mix of the latest cresses. The composition of the mix therefore changes as new cress varieties are introduced.

Origin

WhatZnew Mix has been created to make the new cresses accessible for specialised restaurants and small-scale users. It is a response to the demand for availability and ease of ordering. The WhatZnew Mix means it is no longer necessary to order large quantities, as a result of which a fresh product is always at hand.

Beschikbaarheid en houdbaarheid

WhatZnew Mix is available year round and can easily be stored for up to 7 days at a temperature of 2-7°C. Sown on a natural fibre and produced in a socially responsible culture, the cresses in the WhatZnew Mix meet the hygienic kitchen standards. The products are ready to use, since they are grown clean and hygienically.
